

A Great Service Project in Conjunction with Read Around the World!

The Phonics Phone is a teaching tool that helps children hear the words they say. By using the Phonics Phone, the words you say are directed back into your own ears. Kiwanis has for many years promoted reading to young children as an important project. Kiwanis clubs throughout the country have partnered with the CANDL Foundation in making the Phonics Phone available to schools in their community as a club service project.

Make this your Kiwanis club service project!
